

Lee's Hill Pet Hospital

Adult Dog Health Plans

The best way to treat illness is to **prevent** it! Our health plans are designed to make your pet's care affordable and easy.

Unlimited Exams

All of our health plans include unlimited exams for the duration of the plan. These are not limited to vaccine visits, but are also for all of our consult services (nutrition, behavior, training, etc.) and any sick visits. We are here for all your pets needs!

Routine Bloodwork

Annual exams and routine bloodwork are key to catching illness in early stages. Normal results are a range in bloodwork and each pet is unique. For example, your pet may have low-normal values on kidney function. So, if results come back very high-normal a few years later, we know, although the results are in the "normal" range, we may need to investigate further.

Dental Cleaning

A dental cleaning is included in our adult plus plans. Periodontal disease is the most common ailment among adult dogs and can cause heart, liver and kidney problems. A Routine dental cleaning prevents this disease and costs less than treating the complications related to periodontal disease. We also recommend home dental care to keep your pet smiling ☺

Adult Dog Essentials Health Plan
