

# Lee's Hill Pet Hospital

## Puppy & Kitten Health Plans

The best way to treat illness is to **prevent** it! Our health plans are designed to make your pet's care affordable and easy.

### Vaccinations

All essential vaccines are included in our health plans. Puppies and kittens are like babies with immature immune systems, not ready to fight off disease. As the maternal antibodies wear off, the vaccines will take over and then you only have to worry about whatever mischief your little one gets into!

### Unlimited Exams

All of our health plans include unlimited discounted exams for the duration of the plan (365 days). These are not limited to vaccine visits, but are also for all of our consult services (nutrition, behavior, etc.) and any sick visits\*.

Co-pay for Doctor exams: \$15 (Regularly \$30-80)

Co-pay for Technician appointments: \$5 (Regularly \$15)

**\*Emergency or Work-in appointments either with a doctor or technician are non-discountable\***

**These health plans are available to pets under the age of 16 weeks.**

### Puppy Health Plan \$300
